Whilst on holiday in The South West of France, our four children got badly Sunburnt, they had used a good Suntan lotion prior to going on the beach but after spending the day swimming, much of it must have got washed off, as a result they got Sunburnt, and were in agony. After hearing about your **Riviera, Sunburn- cream**, from a nearby holiday maker, we purchased some of your cream, from one of Medicrème's French distributor outlets nearby. We massaged the Riviera Sunburn cream into their sore backs and shoulders and believe it or not, within several minutes the pain eased off dramatically. We did the same thing prior to them going to bed in the evening, where they all slept well & next morning, you could hardly believe it, no pain, no damaged skin, truly remarkable!

Mrs B Smith Eastbourne Sussex,

Dear Medicreme

I go to the gym quite often to keep fit, but recently I had to give it up for a while as doing some heavy lifting at work, I slipped and hurt my back, sometimes these things happen. One evening whilst taking it easy I went for a gentle walk, where I met a friend from the gym, who asked me why he had not seen me recently. After telling him about my back he told me that one of the guys in the gym has been trying out a French cream called **Sirene Sports Rub**, he suggested that I try it out, as it was supposed to be very good for sports injuries and gym fatigue etc, so I got some off this guy and tried it out. You would not believe the results, not only did it dramatically ease the back pain, but also other muscle & joint pains as well. Now many of my friends are also using it with great success. Carry on the good work Medicreme, we are all recommending it!

Medicreme Sales,

Hi Just a short note to let you know, I have been trying out your **Provence Skin and Hand Cream**, and Wow!! It's fantastic!! Really is, and does this cream work wonders, just like it says in the brochure, so many things that are advertised, don't really live up to the claims made of them but Provence really, really does!! With the aloe vera and collagen content being more than most creams & your factor Areox, whatever is in it; sure enough it does have amazing qualities, I feel its taken years off my looks, I will continue to use this forever! I have recommended it to all my friends as well; you are guaranteed my business on this amazing product!!

Congratulations on producing such a remarkable product, called **Chamonix Leg and foot cream**, I am a pensioner and get a lot of pains in my ankles and feet. After walking more than half an hour, shopping etc, a friend of mine was looking on the internet to see if he could find anything that would help and he came across your web-site. He noticed your Chamonix leg and foot cream, so he kindly got me a bottle from your site, I must say it is absolutely wonderful, it helps me a lot, if my legs start aching I sit down and massage some of your cream, rubbed well in, and within about twenty minutes or so, I get really good relief. Thank you for such a product, I will tell my friends and relatives about it.
